Email: amanchahar828@gmail.com
Mobile: +91 9302971271

SKILLS

Languages: C++, Python, C, Java
Frameworks: HTML and CSS, Bootstrap, NodeJS, React, Flexbox
Tools/Platforms: MongoDB, JDBC, SQL Server, Figma
Soft Skills: Problem-Solving, Team Player, Adaptability

INTERNSHIP

ElevateLabs | [Link](#) Sep' 25 – Nov' 25
Java Intern

- Applied object-oriented design principles and implemented reusable utility classes to enhance code maintainability and boost system performance by 25%.
- Integrated Java with SQL/JDBC databases to handle data retrieval, preprocessing, and validation for backend applications.
- Debugged, tested, and optimized Java functions using JUnit and exception handling best practices to ensure stable application behavior.

PROJECTS

InterviewIQ | *MERN Stack, Firebase, Razorpay* | [GitHub](#) Mar' 26

- Built a full-stack AI-powered interview platform where users can upload resumes (PDF) and receive personalized interview questions for technical and HR rounds.
- Implemented secure Google authentication, a credit-based access system, and Razorpay payment integration for monetization.
- Developed a responsive UI with smooth animations and features like real-time feedback, interview history, and performance reports.

Billify | *React, Vite, Node.js, Express, MongoDB* | [GitHub](#) Apr' 25

- Engineered a full-stack billing and invoicing workspace for small teams, covering customer management, reusable product catalog, and invoice creation with print-ready preview.
- Structured secure authentication and session flow using bcryptjs and JWT, with a modular Express API and MongoDB/Mongoose data models.
- Optimized operational reporting with monthly revenue summaries and CSV export (via json2csv), plus fast customer lookup for day-to-day workflows.

TRAINING

Cipher Schools (Edtech Company) | [Link](#) Jun' 25 – Jul' 25
DSA using C++

- Acquired in-depth proficiency in core data structures such as arrays, linked lists, stacks, queues, trees, graphs, and hash maps, applying them to solve real-world computational problems.
- Practiced algorithmic techniques including recursion, dynamic programming, greedy algorithms, and graph traversal (DFS/BFS), improving problem-solving efficiency and coding accuracy.
- Executed optimized C++ solutions using STL to enhance logic and coding speed.

CERTIFICATES

Generative AI Professional | Oracle | [Link](#) Oct' 25
Git and GitHub | CipherSchools | [Link](#) Jul' 25
Java | imNeo | [Link](#) May' 25
DSA | CipherSchools | [Link](#) Dec' 24

ACHIEVEMENTS

Placement Coordinator Dec' 23 – Present

- Assisted the Department of career services as student placement coordinator. | [Link](#)

Solved 200+ coding questions Jun' 25 – Present

- Solved more than 100+ Coding and DSA questions on Leetcode and GFG. | [Link](#)

EDUCATION

Lovely Professional University Phagwara, Punjab
Bachelor of Technology Aug' 23 – Present
Computer Science and Engineering; CGPA: 7.06

K.V. School Gwalior, M.P.
Intermediate | PCM | Percentage: 74% Mar' 21 – May' 22

K.V. School Gwalior, M.P.
Matriculation | Percentage: 75% Mar' 19 – May' 20
